

## The Spark Festival at Phoenix

Enjoy our programme jam-packed with amazing experiences, awesome activities and family-friendly films – hand-picked for the new digital generation!

We'll have a special children's menu plus fun and games to keep your kiddies content.

### [1] Sparking the Imagination

Wed 29 May – Sun 2 Jun  
10am – 5pm daily  
Free events, 2+ years

### [1.1] Book of Worlds

This is no ordinary book. As you turn its pages, its tale comes to life around you with pictures, lights and sounds! This incredible interactive artwork takes children and their parents on a magical trip into a world where imagination becomes real.

### [1.2] Graffit!

See your digital artworks appear before your eyes in this wonderful interactive installation. Graffit! lets children spray colours and shapes across a huge virtual canvas. All of the fun with nothing to clear up!

Book of Worlds and Graffit! have been devised by digital artist Luke Woodbury and commissioned by Phoenix for The Spark Festival 2013.

### [1.3] Boredbrands – The Digital Funfair

A trio of original, imaginative and very funny interactive artworks. Be a superstar DJ with the Beat Jigsaw, create awesome music and videos with the AV Arcade Table, and take a spin on the Pacbike to save the earth from alien invaders!

### [2] The Lost Child

Sat 1 & Sun 2 June, 11am & 2pm  
Ages: 3 - 10 years  
Running time: 50 mins  
Tickets: £3.50 (children and parents)

When Rowan disappears, her father the Tinker sets off on a magical journey to find her encountering wonderful creatures along the way! Resident at Phoenix, Bigmix Theatre's brilliant adaption of this charming story blends traditional theatre with digital animation to create a delightful performance which is funny, wonderfully weird and just a little bit scary!

### [3] Digi Kids – 1 day workshop

Wed 29 – Fri 31 May  
10am – 2.30pm  
Tickets: £25  
Ages: 7+

Let your imagination run wild! This media production course offers a taste of the exciting worlds of music making, film and computer programming, split into three sessions:

**Music making** - produce your own music track and explore how computers manipulate sound.

**Film production** - we'll be developing ideas using imagination and performance.

**Digital media** - learn how to use basic programming tools to play with film and sound.
